Adobe Creative Cloud Express

How to create a video in Adobe Creative Cloud Express

Step-by-step instructions for students and teachers

1 HOMEPAGE

After you log in with your school, classroom, or personal account, you'll see the Creative Cloud Express home page.

You can always return here by clicking the Creative Cloud Express icon in the top left.

2 SELECT A TEMPLATE

To get started, select a template best suited for a video, such as a slideshow.

You can also use an Adobe-created template under "Templates for the classroom".

3 BEGIN YOUR PROJECT

Add a title.

Then choose one of the available templates or choose Start from scratch

4 ADD SLIDES AND CONTENT

Add new slides by clicking the plus button in the bottom left.

Add content to a slide with the central plus button. You can text, upload your own videos and images or search through the built-in image and icon libraries for royalty-free content.

5 RECORD VOICE NARRATION

Record voice narration by clicking and holding the microphone button as you speak.

Click again to re-record.

6 SHARE YOUR CREATION

Decide the best sharing option for you and your classroom.

You can share via a public link,
or collaborate with someone,
or send it directly to Google Drive,
or Google Classroom,
or Microsoft Teams.
