Adobe Creative Cloud Express

How to create a graphic in Adobe Creative Cloud Express

Step-by-step instructions for students and teachers

1 HOMEPAGE

After you log in with your school, classroom, or personal account, you'll see the Creative Cloud Express home page.

You can always return here by clicking the Creative Cloud Express icon in the top left.

2 SELECT A TEMPLATE

To get started, select a template best suited for graphics, such as a flyer, poster, or infographic.

You can also use an Adobe-created template under "Templates for the classroom".

3 ADD CONTENT

The left toolbar allows you to add new content to your project, such as images, text, shapes, templates, or backgrounds.

4 EDIT AND CUSTOMIZE CONTENT

The right toolbar allows you to customize your content by changing the font size and style, editing the background color, adding animations, and more.

5 NAME YOUR PROJECT

Name your project by clicking “My project” in the top left.

Type in the new name, and Creative Cloud Express saves it automatically.

6 SHARE YOUR CREATION

Decide the best sharing option for you and your classroom.

You can collaborate with someone,
download your work, Download
share via a public link, Share
or send your work directly to Google Drive,
Google Classroom,
or Microsoft Teams.
