

Adobe Express for Education

Our school has provided your student with access to Adobe Express both at school and at home.

With Adobe Express, students can quickly make stunning graphics, flyers, photos, presentations, web pages, and videos—no design experience required. It's a whole new way to express themselves both inside and outside the classroom. Adobe Express works with any browser, including on Chromebooks.

To access Adobe Express from your web browser, go to www.adobe.com/education/express/. On the top right corner of the browser, select “sign in.” This will bring up a new page. Select “log in with school account” on the right side of the page and enter your school email and password.

Creativity for all.
