

Creativity for all.

Adobe Express and Adobe Creative Cloud

Our school has provided your student with access to the entire collection of Adobe Creative Cloud applications and Adobe Express both at school and at home.

Creative Cloud offers more than 20 industry-standard apps for design, photography, video, and web. As students develop in-demand digital skills with these tools, they also learn how to express their ideas in more visually compelling ways. For more information, visit www.adobe.com/creativecloud.

With Adobe Express, students can quickly make stunning graphics, flyers, photos, presentations, web pages, and videos—no design experience required. It's a whole new way to express themselves both inside and outside the classroom. Adobe Express works with any browser, including on Chromebooks. Visit www.adobe.com/education/express to learn more.

To access Creative Cloud at home, go to www.adobe.com, select sign in with “school or company account” and enter your school email and password.

To access Adobe Express from your web browser, go to www.adobe.com/education/express/. On the top right corner of the browser, select “sign in.” This will bring up a new page. Select “log in with school account” on the right side of the page and enter your school email and password.

For Creative Cloud, once you've logged in, you can choose the apps you'd like to download. You can use Adobe apps on:
